

YOUR BRAND INSIDE A GAME WITH 100 MILLION DOWNLOADS.

NOXGAMES is a Brno studio with over 250 million downloads. Puppet Soccer and Puppet Ice Hockey are ours, live on Google Play today and still holding **4.3 and 4.8 stars** a decade after release. We own the code, so putting your name inside is a **re-skin with a fixed launch date**.

Today these boards read NOXGAMES.
In your edition they read your name.

THE DEAL

PACKAGE	WHAT YOU GET	LIVE IN
Sponsor Drop	Your logo in the board rotation, your colours on the ball or puck.	4 weeks
Branded Team	A playable team in your kit and crest, your ground as a venue.	8 weeks
Licensed Edition	Your own app on both stores, your league in it, operated for a year.	12 weeks
Franchise Partner	Two sports, a tournament layer and real rewards, operated two years.	20 weeks

We build the price around what you actually need, and we are open to negotiating it. Tell us the sport and the budget you are working with and the offer gets built around that, rather than the other way round.

One fee per package, excluding VAT, quoted on the call. **Half at signing, half only once you have played the halfway build and signed it off.** From the Licensed Edition up the game either keeps its advertising and purchases and pays you **half of net revenue** quarterly, or ships **clean, with no ads and nothing to buy.** Or **split it:** bring another company, club or league into the same edition and the fee divides between you.

-25%

The first partner in a sport takes 25% off, once, and it is gone the moment somebody signs that sport before you. Soccer and ice hockey are built today. Basketball, handball, volleyball, futsal and floorball run on the same core and have no game of their own anywhere in the world.

WHY THE ROOM IS SMALL

Four partners per game. Ever.

Not four per season. The cap is contractual and runs for the life of the title.

Category exclusive

From the Branded Team up, no competitor of yours appears in the game for the whole deal.

The inventory is yours to resell

Sell the in-game boards, events and rewards to your own sponsors and keep all of it.

WHAT IS IN THE CONTRACT

You approve before you pay the rest

You play the halfway build and sign it off. If it is not what you agreed, the second half never falls due.

The launch date carries a penalty

Fixed at signing. Every week we slip on our side is a credit against your fee.

You are covered if we stop

Stop operating inside the term and the build, with every asset made from your material, is handed to you.

WHO THIS IS FOR: YOU, OR SOMEBODY YOU KNOW

A brand

Sponsorship budget. Four minutes of attention, not one second.

A gear maker

Your sticks, boots or kit become what the player scores with.

A club

Crest on the kit and the cup, plus inventory you resell yourself.

A league

Your table and fixtures are already how the game runs.

A federation

Grassroots budget, not marketing. Plays offline, no ads.

SEE YOUR OWN EDITION FIRST, IN FIVE DAYS

Send us the sport and a brand pack. Within five working days you get **concept art of your edition, a plan for how we would build it, and an offer with a price and a date.** No fee, no commitment. Or take the call first: thirty minutes, and you leave with a sport, a package and a date.
